TRADITIONS COLLECTION ACACIA VENEER

The Acacia Veneer finish from our Traditions Collection is sand-blasted to create a rustic appearance. This process accentuates the natural grain of the wood and creates a variation in both color and texture. The existence of natural knots, cracks, scratches, and marks in the surface of the wood should be expected. These visual characteristics add to the natural beauty of the material, unique to each piece.

Care & Maintenance:

The surface of the Acacia Veneer is subject to stains if spills are left for a long time without wiping. It is strongly recommended to use a place mat or coaster on the surface to protect it from heat over 140° F to avoid burn marks. Dust the surface regularly with a clean, damp cloth. Avoid using any harsh abrasives or chemicals. The surface of this item has been treated with a wax to help protect the finish. It is recommended to reapply wax to the surface from time to time. We recommend a neutral household paste wax that can be purchased at major home improvement stores.

SPECIAL CONSIDERATION: The Acacia Veneer finish is sandblasted to create a rustic appearance. This process accentuates the natural grain of the wood and creates a variation in both color and texture. The existence of natural knots, cracks, scratches, and marks in the surface of the wood should be expected. These features are not defects, but rather the material's natural characteristics. By ordering products from this collection, you accept the natural characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this finish.
