BELLA ANTIQUE COLLECTION CONCRETE

LIGHT GRAY CONCRETE

WHITE CONCRETE

This 'concrete finish' is a natural material, comprised of various types of limes, cements, silicates, additives and other ingredients. It is strong, flexible, has good adhesion, and comes in different colors and appearances. It is popular for indoor and outdoor use, for finishing floors, walls, furnishings, swimming pools, etc.

It is mineral-based, and has a surface like natural stone. To give it a real natural concrete look, the surface is full of small cement particles, which can be up to 0.8mm in size. If aggressive acids, like red wine or vinegar, are spilled and left for a long time without wiping, it can leave marks on the micro particles (similar to marble and natural stone).

An added layer of invisible water-based protection is currently included on top of the finished surface. This treatment should be reapplied periodically to keep the surface saturated and protect against household stains. After years of use, this finish becomes more and more beautiful as it gives the concrete a natural patina.

Care & Maintenance:

Handling & Unpacking

To unpack safely, use a soft or padded surface before emptying box contents. Please take special care not to damage the concrete edges with a hard surface.

Heat Protection

It is strongly recommended to use a trivet or coaster on the surface to protect it from heat over 140° F from hot pans/dishes/cups to avoid burn marks.

Micro-Scratch Removal

Sand the surface lightly with a fine grit sanding paper, and wax, like you would on natural stone.

Stains & Spot Treatment

Sand the surface lightly with a fine grit sanding paper, and apply wax. It is important to do this as soon as possible before the stain penetrates the micro particles in the surface.

SPECIAL CONSIDERATION: Bella Antique Collection products are made with natural stone, antiqued metal, concrete, and reclaimed wood. These products include unavoidable variation in color, texture, uneven grain, blemishes, scratches, marks, and cracks. These features are not defects, but rather the material's natural characteristics. By ordering products from this collection, you accept the characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect the natural finishes unique to this
